CONCLUSION

In view of the amendments and remarks, the Applicants believe that all pending claims, Claims 1-14, 32-33 are in condition for allowance and ask that those pending claims be allowed. The foregoing comments made with respect to the positions taken by the Examiner are not to be construed as acquiescence by the Applicants with other positions of the Examiner that have not been explicitly contested. Accordingly, Applicants' arguments for patentability of a claim should not be construed as implying that there are not other valid reasons for patentability of that claim or other claims.

No fee is believed to be currently due. Please apply any charges not covered or credits to Deposit Account No. 06-1050.

Respectfully submitted,
